

The Plastics Collaborative Sponsorship Packet

The Plastics Collaborative (PC), a project of Humane Action Pittsburgh (HAP), is a dynamic network of organizations committed to reducing the use of single-use plastics in the greater Pittsburgh region. Comprised of representatives from diverse sectors, including community groups, nonprofits, businesses, and local governments, the PC takes action through education, policy recommendations, and pilot projects to reduce single-use plastics.

Initially launched by Sustainable Pittsburgh in early 2020, the PC has achieved several monumental milestones despite pandemic-related challenges.

This includes the passage of Pittsburgh’s “plastic bag ban”, a white paper outlining single-use plastics policies from across the country, and a website, Here’s Your Plastic, to educate the public on the environmental impact of single-use plastics.

Now, under the leadership of HAP, the PC is eager to continue advancing environmental protections by reducing the use of single-use plastics in the Pittsburgh region and beyond with a close eye on environmental justice and equity.
